OF
**ORNAMENTALS
AND OTHER
NURSERY STOCK**

RUSTIC BRIDGE
RESIDENCE, A. L. HEGER,
Landscape Architect

Dixie View Nurseries
COVINGTON, KY.

*Plants For Every Place
And Purpose*

General Information

How to reach our Nurseries. By Auto from Cincinnati, Covington, or Newport over the beautiful Dixie Highway, one mile south of Florence, Ky. (Stringtown on the Pike.) This takes you direct to our grounds as we are located on the main highway. General office and landscape division located on Hudson Avenue, Lakeside Park, one-half mile from end of Ft. Mitchell carline.

Guarantee

All shipments are freshly and specially dug, and guaranteed to arrive in satisfactory condition. Prices include delivery to any place in Cincinnati, Covington, Newport, or surrounding suburbs. Everyone knows that the transplanting of trees and shrubbery is attended with some risk. We do all we can in the handling of our products to minimize this risk but much of the responsibility for success or failure of nursery stock to grow depends upon the planting, the care, and the weather conditions over which we have no control. Therefore, we can make no further guarantee than all plants shall be as represented and if not satisfactory on delivery, your money will be cheerfully refunded.

TERMS. Cash with order or C. O. D. on delivery. Prices are per tree, except where otherwise noted and 10% discount is allowed in lots of five or more.

WHEN TO PLANT. The general seasons are from about March 1st until the latter part of May and from September 1st to about December 15th. However, our landscape department can plant practically the entire year with the exception of the period when frost is in the ground.

VISITORS WELCOME. We shall be glad to have you visit our Nurseries at any time and by appointment for landscape service.

"Many a man intensely practical in his own business will give his order to the lowest bidder among competing nurserymen, and waste years looking at sickly, struggling or dying trees, shrubs and perennials about the home, rather than invest a little more money and get satisfaction and joy from the start. Poor stock is dear at any price."—Nieltje Blanchan in "The American Flower Garden."

General Office, Lakeside Park, Covington, Ky.

Evergreens

In this list are contained some of the most valued plants for landscape effects. Only a personal familiarity with the various plants in our collection could give you an adequate idea of the variety of color effects they present. There are deep and light greens, bright and sombre golden tints and soft steel gray and blues.

The different types of growth in this class provides truly "a plant for every place and problem." Some for the small and limited foundation planting, some for bed or border use; others for screenings, hedge and windbreaks. There are still others, if an individual specimen is desired. Quite a few of the taller growing varieties may be used in connection with the dwarf growing types as they will stand severe shearing.

Each x represents one transplanting. B&B signifies Balled and Burlapped.

Arbor-Vitae—Thuya

This ornamental group as a whole, though including many varieties of upright growth, does not attain great heights at maturity, and is adapted to small lawns, as well as large areas. The soft, fern-like foliage blends admirably in group or border plantings, while their neat habit and compact appearance make them valuable for cemetery specimens, or individual planting on open lawns, in window-boxes, vases, or for house decorations. When used as hedges, the taller-growing sorts make a splendid background for other ornamental plants, and provide protection and seclusion for the flower or vegetable garden.

American, *Thuya occidentalis*. Unexcelled for tall hedges, screens or windbreaks. Erect and pyramidal habit; rapid growing. Endures shearing read-

ily, so it can be kept at any height desired. Splendid native tree for general planting.

3 ft. xxx B&B.....	6.00
3½-4 ft. xxx B&B.....	7.00

Biota—The Chinese Arborvitae

More delicately cut foliage, arranged in perpendicular fronds, distinguishes these plants from the better known Arborvitae which they closely resemble. They are useful in foundation and group plantings and for producing formal effects.

Biota Aurea Nana, Berckman's Golden Arborvitae. Striking color with golden-edged, upright fronds. A favorite for the foreground of Evergreen groupings.

12-15 in xxx B&B.....	\$2.50
-----------------------	--------

Biota Compacta. Beautiful color and very dense and compact.

Cedrus

Cedar of Lebanon, Cedrus Libani. Not hardy in exposed situations. Very beautiful.

2-3 ft. B&B.....	\$4.00
------------------	--------

Fir—Abies

The Firs are mostly quick-growing, hardy evergreens of pyramidal form and symmetrical outline. Some of the most ornamental tall-growing evergreens are contained in this group.

Concolor, Silver Fir. This tree has unusual light bluish green foliage and is pyramidal in shape.

3-4 ft. xxxx B&B.....	\$8.00
-----------------------	--------

Douglas, Abies Douglassi. Dark bluish green. Pyramidal type.

1½-2 ft. xxx B&B.....	\$3.00
2-3 ft. xxx B&B.....	5.00

Homolepsis, Nikko Fir. Dark green. Symmetrical in type.

3-4 ft. xxxx B&B.....	\$8.00
-----------------------	--------

Veitchi, Veitch's Silver Fir. Dark green foliage on upper side and silvery beneath. Tall, symmetrical in type.

3-3½ ft. xxxx B&B.....	\$7.00
------------------------	--------

Hemlock—Tsuga

Magnificent native trees, extremely useful for ornamental planting. As lawn specimens in full sunlight, the lower branches sweep the ground. They tolerate partial shade also, and their endurance of shearing adapts them for foundation and bed planting and for use in hedges. By shearing they become very dense and compact.

Canadian, Tsuga Canadensis. Dark green foliage and very hardy.

3-3½ ft. xxxx.....	8.00
3½-4 ft. xxxx.....	10.00
4-5 ft. xxxxx.....	15.00

Juniper

This family embraces many different forms and characters. They are pyramidal, erect and spreading; foliage varying in color from light to dark green, to gold and blue. They possess the vigor to establish themselves in any type of soil and will thrive in clay, stony and poorer soils where some evergreens may fail.

Ashfordi, upright Juniper.

4 ft. xxxx B&B.....	\$6.00
---------------------	--------

Chinese Columnaris Blue. Bluish green foliage. Pyramidal type.

2-3 ft. xxx B&B.....	\$5.00
----------------------	--------

Common, Juniperus Communis. English Juniper.

2½-3 ft. xxx B&B.....	\$2.50
3-4 ft. xxx B&B.....	3.50

Chinese Pyramidal, (new). Pyramidal type.

2-3 ft. xxx B&B.....	\$4.00
----------------------	--------

Douglas Golden, Juniperus Douglassi Aurea. Golden spreading Juniper.

15-18 in. xxx B&B.....	\$2.00

Japanese, Juniperus Japonica. Silver Japanese Juniper.

18-24 in. xxx B&B.....\$3.50

Naboriensis, very odd type.

18-24 in. xxx B&B.....\$3.50

Pfitzer's, Juniperus Pfitzeriana. A wide and graceful evergreen. Very good.

12-18 in. xxx B&B.....\$2.50

18-24 in. xxx B&B..... 4.00

24-36 in. xxx B&B..... 8.00

Red Cedar, Platte River, Juniperus Virginiana. Pyramidal habit. One of the very best.

2-3 ft. xxx B&B.....\$ 3.00

3-4 ft. xxx B&B..... 4.00

4-5 ft. xxx B&B..... 5.00

5-6 ft. xxx B&B..... 7.00

4-5 ft. xxxx B&B sheared..... 8.00

5-6 ft. xxxx B&B sheared..... 10.00

Savin, Juniperus Sabina. A low spreading evergreen. Very hardy and good for dry locations.

15-18 in. xxx B&B.....\$2.50

18-24 in. xxx B&B..... 3.50

Sargent's, Juniperus Sargentii. Blue carpet Juniper. Fine for rockery.

15-18 in. xxx B&B.....\$3.00

18-24 in. xxx B&B..... 5.00

Scopolorum, Green, (new).

2-3 ft. xxx B&B.....\$5.00

Scopolorum, Blue (new).

2-3 ft. xxx B&B.....\$6.00

Silver Japanese, Juniperus Japonica Sylvestris.

2-3 ft. xxx B&B.....\$3.50

Spreading, Juniperus Canadensis Depressa. Many-stemmed dwarf Juniper. Good for ground cover.

1-1½ ft. xx B&B.....\$3.00

1½-2 ft. xxx B&B..... 4.00

2-2½ ft. xxx B&B..... 5.00

Squamata, low spreading type.

(We have a few exceptionally fine trees upon which we will be glad to quote prices on application.)

Tamariscifolia, Tamarix-leaved Juniper. Gray-green foliage.

18-24 in. xxx B&B.....\$3.50

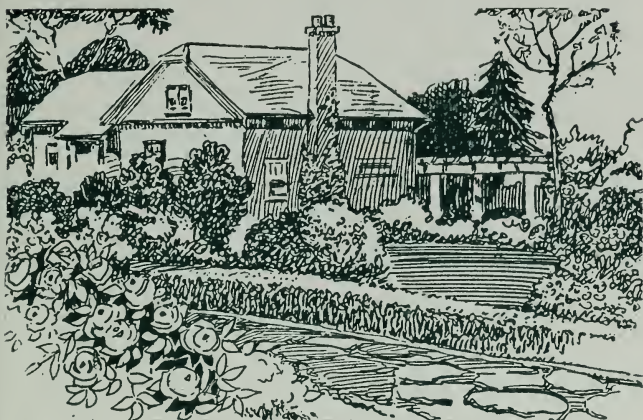

2-3 ft. xxx B&B..... 8.00

Two foliage Juniper, Juniperus Luptoni. Upright Juniper.

2-3 ft. xxx B&B.....\$3.50

Virginiana Globe, Juniperus Virginalis Globosa, (new). Dwarf globe type.

12-15 in. xxx B&B.....\$3.50

Virginiana Glauca, Blue Cedar. Pyramidal type.
Soft blue color.

1-1½ ft. xx B&B.....	\$ 3.00
1½-2 ft. xx B&B.....	3.50
2-3 ft. xxx B&B.....	6.00
3-4 ft. xxx B&B.....	8.00

4½-5 ft. xxx B&B.....	12.00

Waukegan, Juniperus Sabina Prostrata. Creeping Juniper.

2-3 ft. xxx B&B.....	\$8.00
----------------------	--------

Pine—Pinus

The Pines are perhaps more diverse in character than any other family of Evergreens. They are native to the mountains and the lowlands, so endure a wide range of climatic and soil conditions, and may be used in practically any location where a hardy permanent evergreen is wanted.

Austrian, Pinus Austriaca. Strong and hardy.
Beautiful color.

18-24 in. xx B&B.....	\$2.00
2-3 ft. xxx B&B.....	3.00
4-5 ft. xxxx B&B.....	8.00

Flexis, Limber Pine. More compact than the familiar White Pine with darker green needles.

12-18 in. xxx B&B.....	\$2.50
18-24 in. xxx B&B.....	3.50

Mugho, Pinus Mughus. Compact dwarf type.

8-10 in. xxx B&B.....	\$2.50
10-12 in. xxx B&B.....	3.00
12-15 in. xxx B&B.....	3.50

2-3 ft. xxx B&B.....\$1.50

3-4 ft. xxx B&B..... 2.50

4-5 ft. xxx B&B..... 5.00

Retinispora—Chamaecyparis

The brilliancy and variety in the coloring of the foliage of these plants, as well as their delicacy of texture, make them especially sought after for Evergreen groupings and beds, terrace borders, hedges, window boxes and vases. The group includes tall-growing sorts, and those of a distinctly dwarf nature.

Fillifera Aurea. Golden thread branched Cypress.

15-18 in. xx B&B.....\$3.50

Plumosa, Plume branched Cypress. Very graceful and of green color.

15-18 in. xx B&B.....\$2.00

24-30 in. xx B&B..... 3.50

Plumosa Aurea, Golden Plume Cypress. Like above but tips are of a beautiful gold tint.

Climbing and Clinging Vines

Climbing vines are as necessary to the comfort and beauty of the home as the trees and shrubs we plant about it. They mature quickly and tone down the stiff, bold angles of new buildings, and give shade and flowers over verandas and trellises. They are also used on steep slopes and banks to prevent washing. They will ramble over unsightly neglected places and make them beautiful. They require very little attention.

Ampelopsis (Ivy). We have three varieties. Virginia Creeper, Japanese or Boston Ivy, and the improved Virginia Creeper. Strong plants, each 75c; in lots of five or more, 60c each.

Celastrus Scandens (Bittersweet). Has rich red berries in fall. Each, 75c; \$5.00 per 10.

Clematis (Hybrids). Jackmanni, large purple; Andre, large red; Henryi, large white; each, \$1.00; per three, \$2.50. Paniculata, small white sweet scented, 50c each.

Lycium Chinese (Matrimony Vine). Shrub-like vine with lavender flowers. Especially good for planting on banks and terraces. Each, 50c; \$3.50 per 10.

Trumpet Vine. Desirable for covering summer houses, trees or rustic bridges. Each, 50c; per 10, \$4.00.

Wisteria. Colors: white and purple. Each, 75c; per 10, \$6.00.

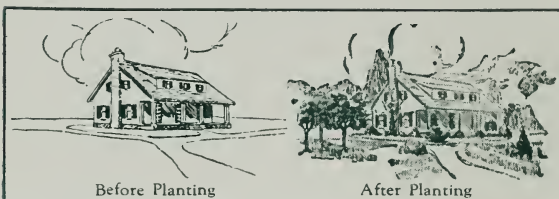

Deciduous Shrubs

Shrubs under this group lose their foliage during the winter season. Individually or collectively they are an important feature in the adornment of any grounds. Where they can be used as individual specimens and given room for symmetrical development their grace and beauty appear to perfection. They are particularly good for screening the garage, laundry yard or any unsightly view. A great many of the taller growing varieties bear fruit and hold same during the fall and winter months, thus attracting the birds. Others are noted for the color of their bark, etc., and such shrubs as the Dogwood give a tone of color even to the gray landscape of winter. This is only a small list of the varieties we carry and prices quoted below will govern except when noted.

PRICES: Each, 75c; per 10, \$6.00; except when noted.

- Almond, Flowering, 2-3 ft., each.....\$1.00
- Aralia, Pentaphylla.
- Althea, Ardens, double violet.
- Althea, Amplissima, double rosy red.
- Althea, Boul de Fue, double red.
- Althea, Joan of Arc, pure white.
- Althea, Peoniflora, white with cherry red center.
- Althea, Totus Alba, single white.
- Althea, Rosea, pink mixed colors.
- Barberry, Japanese.
- Butterfly Bush.
- Calycanthus, Sweet Shrub.
- Coral Berry or Indian Currant.
- Cranberry, Highbush Cranberry.
- Deutzia, Pride of Rochester.
- Deutzia, Gracilis.
- Deutzia, Crenata.
- Desmodium, Purple.
- Desmodium, White.
- Dogwood, Blood-twig.
- Dogwood, Red-twigged.
- Elder, Golden American.
- Exochorda or Pearl Bush, grandiflora.
- Forsythia, Seiboldi, Golden Bell.
- Forsythia, Viridissima, Golden Bell.
- Forsythia, Fortune's Golden Bell.
- Forsythia, Suspensa or Drooping Golden Bell.
- Forsythia Intermedia, Golden Bell.
- Hydrangea, Arborescens grandiflora, (Hills of Snow.)
- Hydrangea, Paniculata grandiflora.
- Hydrangea, Quercifolia (Oak Leaf.)
- Honeysuckle, Fragrant Bush.
- Honeysuckle, Morrow's.
- Honeysuckle, Bella Altida.
- Japonica, Japanese Quince.
- Ligustrum, Amoor.
- Ligustrum, Ibota.
- Ligustrum, Regels.
- Lilac, Common purple.
- Lilac, French. (Varieties and prices on application.)
- Mock Orange, Philadelphus coronarius.

Mock Orange, *Philadelphus grandiflorus*.
 Mock Orange, Mont Blanc.
 Mock Orange, Nevalia.
 Mock Orange, Gordonianus.
 Rhodotypos, Kerriodes, Jetbead.
 Snowball, Common.
 Snowball, Japanese, \$1.00 each.
 Snowberry.
 Spirea Anthony Waterer.
 Spirea Opulifolia.
 Spirea Prunifolia.
 Spirea Thunbergii.
 Spirea, Van Houttei.
 4-5 ft. 75c each; \$6.00 per 10.
 3-4 ft. 60c each; 5.00 per 10.
 2-3 ft. 50c each; 4.00 per 10.
 1½-2 ft. 30c each; 2.00 per 10.
 Sumac, Shining.
 Sumac, Staghorn.
 Sumac, Cut Leaved.
 Tamarix, pentandra. (Odesseana.)
 Tamarix, African.
 Viburnum, Lautana.
 Virburum, Dentatum.
 Weigelia, Candida, white, \$1.00 each.
 Weigelia, Eva Rathke, red, \$1.25 each.
 Weigelia Rosea.
 Weigelia, Hendersonia.

Hedges For Beauty

Why tolerate wood, wire, or iron fences, when you can have living fences at less cost and upkeep? They can either be sheared for formal effects or they can be allowed to grow informal when heavy screening is desired. Below you will find a list of varieties most generally used.

 Paul's Scarlet Climber, vivid scarlet.
 Roseri, red Tausenschon.
 Silver Moon, pure white.
 Tausendschon, varies from white to pink.

Hugonis "Golden Rose of China"

Also called "Father Hugo's Rose." An altogether different Rose, bearing no resemblance to any American species of "wild" Rose, this Chinese native is a notable contribution to American gardens. The Hugonis Rose, makes a symmetrical bush about six feet wide and high when matured. The beautiful reddish maroon growths spring from the roots and are in themselves most attractive. The flowers are really and truly yellow, not merely primrose. Each, \$1.50.

Beautiful Lawns

A well-prepared seeded turf is preferable to having the lawn sodded as it is a difficult matter to get first-class blue grass sod. No fixed rule can be given in regard to the preparation of the ground or kind of lawn grass seed, fertilizer, etc. to use, as the conditions vary in every case. Write us fully regarding your condition and we will be glad to furnish all the information we can free of charge. We will also help you in the selection of the best seed to be used for your particular case. We carry a very complete line of grass and clover seed.

Agricultural Lime for the Lawn

This is a hydrated lime, used on lawns, etc., and for sweetening acid or sour soil. Bags of 50 pounds \$1.00; 5 bags, \$4.00; 10 bags, \$8.00. Do not fail to lime your lawn in the spring. It is most beneficial. We also carry a full line of other fertilizers, humus, garden hose, tools, etc.

ANNUALS FOR BEDDING OUT

We will have a limited amount of Annuals for bedding, window boxes, etc., such as Petunia, Ageratum, Snapdragon, Pansies, etc. Order early if interested.

Rock walls are made attractive by the addition of a few perennials. We carry a full line suitable for this purpose.

Perennials

This list does not comprise our entire collection but only such kinds that are most hardy and suitable to ordinary purposes. Prices: 25c each; \$2.50 per dozen; \$20.00 per 100, unless otherwise noted.

- Achillea (Milfoil).
- Alyssum (Rock Madwort).
- Anchusa (Alkanet) Dropmore.

Vinca (Periwinkel).
Yucca (Adam's Needle).

Bulbs for Fall Planting

We carry a complete line of imported bulbs of the very best variety and quality obtainable. Write for our fall price list of bulbs.

Architectural Features of the Garden

The flower garden, even that of the tiniest dimensions, does not seem complete without some garden ornament, and in this day of great possibilities in this line, with the material procurable at but little expense the desire is easy of fulfillment.

Bird Baths

The one illustrated above is priced at \$15.00 complete. We have others from \$10.00 up.

The bird bath is an attractive feature worthy of much wider usage. It is not alone charming as an architectural feature but has the additional merit of attracting the birds to the confines of the garden. The bird fount should be set in a conspicuous position where the little feathered visitors may be watched from some vantage point.

Garden Seats

The value of the seat as a garden feature has long been recognized. It affords a delightful resting place to those who would walk or work within the garden. Where practicable, seats should be placed where they will command a good view of the garden or of some portion of the garden or its surroundings.

Flower Boxes

The one illustrated is priced at \$12.00, size 30x10x8 inches.

Garden Pots

The one illustrated including saucer is priced at \$3.50, size 12x12 inches.

Garden Pottery is furnished in either gray or ivory. Also in any special color to order.

We also carry a very complete line of Oil Jars, gazing globes, etc.

Garden Pools

Garden pools, to be successful, must be properly constructed, proper circulation and drainage provided and "fool-proof" against frost. If interested in a pool, let us build it to meet your specific requirements and thus be assured of its success.

Sun-Dials

The sun-dial is usually treated as a central feature or placed at the terminus of a walk, and is generally quite conspicuous as one enters the garden. Today substantial sun-dials can be produced at a moderate cost and they may be had in many unique and diversified designs.

The one illustrated is priced at \$19.00 complete. Others are priced from \$15.00 up.

Other Garden Furniture

We are prepared to furnish Garden Umbrellas, Tables, Chairs, etc., in any color or style. Write for prices or have our representative call.

Rustic Furniture

Certain naturalistic situations at times demand specific treatment in the way of rustic or Japanese summer houses, arbors, bird houses, garden seats, bridges, pools, etc. We specialize in this class of work and are prepared to furnish plans and estimates. Where the situation demands furniture of a more formal type, such as pergolas, etc., we are also prepared to submit designs and estimates.

Residence of B. H. KROGER, Lakeside Park,
two months after planting

It Isn't A Home Until It's Planted

The rarest, most costly gem has little charm in its crude state. It's the cutting, polishing and setting that brings out its beauty. A contractor can build but the shell of a house. You make it a home by the furnishings, the decorations, the little home-like touches you add. Even then it may lack something—that last touch that gives it completeness. It's not a home until it's planted—until you've furnished and decorated your grounds—made a setting. Those harsh edges along the foundation, where the grass always grows too long and looks ragged—those bare spots in odd corners—that unsightly fence. A little skillful planting and they vanish. In their place are bushes, flowering shrubs—beauty. And it's such a simple, easy thing to give your home that added charm. "It isn't a home until it is planted."

There are very many important reasons for the careful planting of your home grounds, and I would lay particular stress on these: The greater enjoyment of your surroundings; the expression of taste and personality; the enjoyment of others; the uplift of the community; the economy of execution.

We are prepared to assist you in filling out all of these ends. Let us submit a planting plan and estimates. If you desire to do your own planting we shall be glad to furnish rough plans and give you all help possible.

Let us solve your landscape problems.

A. L. HEGER,
Landscape Architect

LAKESIDE PARK
